Structure in Action is a one-day workshop. It combines Pat Hastings' Puppy Puzzle presentation as well as her discussion of the value of structurally evaluating adult dogs being considered for a breeding program, working trials or performance competition.

AGENDA:

- How to evaluate the structural qualities of both puppies and adult dogs
- What your dog can do and should not be doing
- A vet's ideas on how to strengthen structure and reduce the risk of injury

Questions and hands-on work with 10-12 INVITED adult dogs as well as litter(s) of puppies between 7 and 9 weeks of age for demonstrating the evaluation process. Please contact Cressidagr@gmail.com if you would like to volunteer your dog or litter.

Involved with dogs since 1959, Pat Hastings is an educator, author, breeder, former professional handler, and active AKC judge. Pat evaluates the structural qualities of over 300 litters of all breeds each year. Her books and dvds will be available at this seminar.
